

Turnium Technology Group Unveils “Insight” – Next-Generation Network Analytics and Management Platform

Introducing Turnium Insight - empowering global partners and customers with real-time network analytics, security features, and intuitive management tools

September 10, 2025 – Vancouver, Canada – **Turnium Technology Group Inc. (TSX.V: TTGI) (FSE: E48)** ("TTGI" or "the Company"), a leader in Technology-as-a-Service (TaaS), announces the official launch of “Turnium *Insight*,” a breakthrough solution that empowers partners and customers with unmatched visibility, control, and security across their networks.

In a special podcast, Global CEO Doug Childress and VP of Product Development Josh Hicks introduced *Insight*, now available for all Turnium partners via both OEM and managed channels. Built upon Turnium’s robust SD-WAN architecture, *Insight* delivers a single-pane-of-glass experience for day-to-day network oversight as well as new, advanced features designed to simplify management and enhance operational security.

Key Features:

- **Unified Dashboard:** Aggregates network activity, status, and critical alerts across all client sites into a seamless interface for rapid troubleshooting and informed decision-making.
- **Advanced Topology Visualization:** Interactive topology and map views offer real-time site status, connection health, and instant drilldowns to site-specific data.

- **Managed Alerts and Reporting:** Configurable alerting tools enable partners to monitor site connectivity, receive granular notifications, and optimize NOC operations for proactive incident response.
- **Firewall and SSH Integration:** Partners can deploy popular firewall workloads and access sites remotely via built-in SSH terminals, all from within the *Insight* platform.
- **Efficient Provisioning and Cloning:** Streamlined site cloning and provisioning workflows reduce deployment time and ensure consistency across client networks.
- **Illuminate Engine (Layer 4-7 Analytics):** Deep packet inspection (DPI) with rich application and device-level insights, threat detection, and compliance reporting—empowering customers to identify performance bottlenecks, suspicious traffic, and optimize resource allocation.

Childress commented, “Turnium *Insight* is a game-changer for our partners and their customers, delivering unmatched control, intelligence, and operational efficiency. The visual, intuitive interface puts essential information at their fingertips—transforming network management and security.”

Josh Hicks added, “This platform was developed with our partners’ needs in mind, integrating new utilities and security features that answer real-world demands—from multi-connection failover to IoT device monitoring and compliance support.”

Turnium *Insight* has seen rapid adoption since its soft launch, with resoundingly positive feedback from several hundred partners worldwide. The platform is now fully available and supported across all Turnium reseller and OEM partner channels.

About Turnium Technology Group Inc.

Turnium Technology Group Inc. (TTGI) acquires companies that complement its Technology-as-a-Service (TaaS) strategy, integrates them to generate efficiencies, and delivers their solutions through a global channel partner program to customers worldwide. TTGI’s mission is to provide IT providers with a complete, white-labelled portfolio of business technology solutions, enabling them to quickly add new services in response to customer demand.

In essence, Turnium is building a TaaS platform that incorporates all the services, platforms, and capabilities that ISPs, MSPs, IT Providers, VoIP/UCaaS, CCaaS, or Cloud Providers might need. Additionally, Turnium provides deployment resources, hardware, delivery, support, and marketing and sales enablement to help channel partners go to market quickly and deliver exceptional quality.

Turnium delivers secure, cost-effective, uninterrupted, and scalable global IT solutions to its channel partners and their end-customers—because “Connectivity Matters.”

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSXV) accepts responsibility for the adequacy or accuracy of this release.

FORWARD-LOOKING INFORMATION

This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain acts, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company, as the case may be, to be materially different from those expressed or implied by such forward-looking information. Some of these risks are described under the "Caution on Forward-Looking Information" section and "Risk Factors" section of the MD&A. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. Actual results and developments may differ materially from those contemplated by these statements. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
